

A New Friend to Men Past 40

THIS is the discovery that is bringing relief to thousands of men approaching or past the prime of life. The message below should be of vital interest to you.

According to medical authorities prostate disorder comes to 65% of all men past a certain middle age. Heretofore, men have frequently thought that such devitalizing pains and disorders as Sciatica, pains in the back, legs and feet, nervousness, insomnia, lack of physical and mental vigor, were simply signs of approaching age. Too often, without understanding, the man will give up and resign himself to the belief that vitality is lost permanently.

But now, after seven years of invaluable experimenting—after actual use by more than twenty thousand men in every part of the United States—a wonderful new treatment has been developed that has produced amazing results even to men past eighty and ninety years of age.

FREE—"Why Men Are Old at 40"

This is the title of the book written by a member of the American Association for the Advancement of Science. It tells you how you can, in your own home, use this wonderful gland treatment that outdoes the marvels of European gland surgery. It may save you from the surgeon's knife as it has many others. It will be sent you free if you will simply write or drop a postcard to the address below. But you must do so at once as the edition of this book is limited.
